

MOVEON

THE ULTIMATE PATHWAY TO SPANISH FOOTBALL

MOBEON

TOTAL PLAYER PROGRAM

2026/27

MUCH MORE THAN A FOOTBALL PROGRAM

The **Total Player Program (TPP)** is Mobeon Sports' most complete and ambitious offering, a full-season football immersion designed for players who are truly ready to take the next step.

Every player who joins the TPP has already gone through a **prior evaluation process in Spain**, including a trial and in-depth analysis of their profile, potential, family context, and, most importantly, their real competitive level within the Spanish football environment. For this reason, this is **not an international program**.

It is a **real immersion into Spanish football**.

Players become fully integrated into a club, training and competing alongside local players, under Spanish coaches, and within a system that prioritizes tactical intelligence, decision-making, and collective understanding of the game the foundations of Spanish methodology.

Throughout the season, players live in Spain, sharing apartments with other selected players in the program, experiencing football from the inside, not as visitors, but as part of the ecosystem.

They compete in official matches within the **Catalan Football Federation**, facing real pressure, real expectations, and real opportunities, in a club carefully selected based on their level and profile.

DEVELOPMENT & PATHWAY

At Mobeon, we don't believe in a one-size-fits-all pathway

Each player follows a **personalized career plan**, built around their strengths, objectives, and long-term vision.

The goal of the TPP is not only to develop players under the Spanish methodology – improving them on a daily basis – but to **maximize their future opportunities** in football.

This means opening doors at multiple levels:

- Professional football opportunities in Spain and Europe
- Long-term development pathways within competitive club structures
- University pathways in the United States

Thanks to our network and relationships with programs such as **UConn Huskies, Clemson University, High Point University, and Rutgers University**, players gain visibility and access to opportunities that go far beyond a single season.

PARTNER CLUBS

A complete club ecosystem to place every player at the right level

Player development cannot exist without the right competitive environment.

At Mobeon Sports, we work with a carefully selected network of partner clubs that allows us to operate across all levels of Spanish football, from U19 (Juvenil) to senior and semi-professional categories.

This ecosystem gives us a critical advantage: we are able to identify and place each player in the environment that best fits their level, profile, and potential.

But it's not only about the category.

We take into account:

- The coach and his methodology
- The playing style and system of the club
- The development philosophy and daily demands

Because the right environment accelerates development, and the wrong one can slow it down.

ADAPTATION

CONTEXT

All players in the TPP come from abroad.

They step out of their comfort zone and enter a completely new football and life environment. This transition involves:

- Adaptation to a new **culture and lifestyle**
- Exposure to a different **football rhythm and intensity**
- Managing moments of **uncertainty and instability**

That's why placement is not random. We ensure every player joins a club where:

- Their **context is understood**
- They are **supported on and off the pitch**
- They can **adapt progressively while being challenged**

The objective is clear: to create an environment where the player can **grow, evolve, and perform at their highest level over time.**

CLUB

NETWORK

Our partner network includes clubs competing at different levels of Spanish football

- **APA Poble Sec** – Juvenil Preferente (U19) & Senior Regional Division
- **Atlètic Sant Just** – Juvenil Preferente & Lliga Elit (semi-professional level)
- **CE Europa** – Juvenil structure across all levels, First Team in Segunda RFEF, Reserves in Tercera RFEF
- **UE Sant Andreu** – Historic club with strong competitive structure
- **Penya Anguera** – Development-focused club within Barcelona ecosystem
- **Girona FC** – Professional club with elite academy structure
- **Gimnàstic de Manresa** – High-performance environment with strong pathway to competitive football

A COMPLETE HIGH-PERFORMANCE ENVIRONMENT

Accommodation & Daily Life

A structured living environment designed for performance and stability.

- Shared apartments (3–4 players per apartment) with **Private bedroom for each player**
- Weekly cleaning service
- Safe and well-located areas in Barcelona
- Supervised environment with ongoing support

Seamless Transition

We don't just place players — we **prepare** them. From day one, we work on the technical, physical, tactical, and mental aspects they need to **succeed in a club environment**

Education, Lifestyle & Wellbeing

Because performance goes beyond football.

- Spanish language support
- Guidance on academic pathways
- Structured daily routines
- Nutrition plan + food delivery
- Gym access + physical development program

We ensure players develop **discipline, independence, and structure** in their daily lives.

Proven Success

We've already placed several players into these clubs. Our **track record** proves that with the right guidance and structure, real opportunities happen

TECHNICAL STAFF

At Mobeon Sports, we believe that top-level experiences start with top-level staff.

During this program, players will be guided and evaluated by our staff experienced and inspiring professionals
